## Application for Non-Generological or Certified Marriage, Civil Union or Domestic Partnership Certificate

- Non-Generological Records are marriage records occurring within the last 50 years or if the individual is still living
- Certified copies have the raised seal of the office issuing the record and are always issued on State of New Jersey safety paper
- Certifications are issued on plain paper with no seal and clearly state that they are not valid for establishing identity or for legal purposes. Certifications are generally useful for genealogy.
- Apostille Seal – An Apostille Seal is an additional seal required for certain certified records that will be presented to a foreign government that is a member of the Hague Treaty. The seal is often required on documents for international adoptions or establishing dual citizenship.
